

# Cell Phone Trick Enlarges Your Screen

Written By: cesar

## PARTS:

- [Cell Phone \(1\)](#)
- [Fresnel Lens \(1\)](#)  
*[Find on eBay](#)*
- [Rubber, wood, cardboard, etc. \(1\)](#)
- [Tripod \(1\)](#)

## SUMMARY

## Step 1 — Cell Phone Trick Enlarges Your Screen

- Obtain a Fresnel lens like one of [these](#) from eBay or other retailer.
- Make a stand for the lens. This can be as simple as cutting slots in two blocks of rubber, foam or wood.
- Stand the lens vertically and prop up your cell phone behind it.
- Adjust the distance between the two until the magnification is to your liking.
